This applicant has been transferred to a new examiner from the examiner previously of

record. The new examiner has reviewed claims 12-14, and in his opinion the indicated

allowability of claims 12-14 is withdrawn.

Election/Restrictions

Claims 1,5-11,15,19-22 are withdrawn from further consideration pursuant to 37

CFR 1.142(b), as being drawn to a nonelected inventions, there being no allowable

generic or linking claim. Applicant timely traversed the restriction (election) requirement

in the reply filed on 6/5/06, but it is the examiner's opinion that the restriction set forth

the standards required for separate or distinct and that the burden of on the examiner of

examining claims directed to different invention concepts was clear given that these are

business method claims and requires additional searching and at allowance,

justification.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the

conditions and requirements of this title.

Claims 12-14 are rejected under 35 U.S.C. 101 because here is no concrete and

tangible result recited in the claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, line 18 there in no antecedent basis for "the hyperlinks". All that is previously recited is a first hyperlink. If the reference to plural hyperlinks is made because there is recited "another hyperlink", then this other hyperlink must be somehow recited before the reference is made to "plural hyperlinks" in line 18. Until this clarification can be made, claims 12-13 are deemed unexamineable.

Likewise, but to the same extent as found in claim 12, in claim 14, line 24, the term "the referrals" leaves open other referral not recited in the previous lines and thus is indefinite. Then in line 27, "a referral" is recited without reference to first or second referrals, leaving indefinite.

The examiner seeks amendment of the claims to clarify these problems before time is spent in a substantive examination and before he considers the documents submitted in the IDS dated 7/17/06.

Any inquiry concerning this communication should be directed to Joseph A. Fischetti at telephone number 571 272 6780.
